Personal Metasail & Training software

Automatic Electronic diary of the training activity.

A new way to record and analyze workouts done by yourself or with the coach in a team (speed test, tacks, starts, regatta).

Delivery within June 30th 2023

-30%
for orders before June 30th

300 euros for each Metasail + 5 euros per month for connectivity and data storage costs. The training software where you can **store your confidential informations** and data is included.

We are at the forefront of the Tracking service of your trainings.

Live and post training tracking and video streaming:

- Automatically sync video and workout tracking.
- Augmented reality that overlays the video recording and the instantaneous performances (Speed and VMG) of the framed boat.

- Real-time telemetry of a single boat or all boats in training at the same time.
